To Whom It May Concern.

Dangerous Substances

“We declare that the products used in the manufacture of Axim Hardware are safe in use, and there are no potential emissions of dangerous substances to either the internal or external atmosphere of a building”

THE Parkside Group Ltd is also committed to supply its customers with environment friendly products and is ISO 14001: 2015 & BES6001 Accredited. Furthermore, our Panic Release & Transom Closers are CE Marked.

TPG Ltd also comply with REACH regulation. For the SVHC candidate list and as requested by article 33 of the regulation, TPG Ltd will provide its customers with information about chemicals of “very high concern” used in any of our products. First analysis results indicate we do not use any such substances
